## Drawings for disassembly and installation

1

Remove the bracelet, grip both ends of the wristband with both hands and pull hard, so that there is a small gap between the main body of the bracelet and the wristband clip slot. Put the main body of the bracelet out of the back of the wristband with your fingers.

2

From the back of the wristband, one end of the main body of the wristband is loaded into the chuck of the wristband. The thumb press the other end forcefully, so that the whole body of the wristband enters the chuck of the wristband and is stuck firmly.
